#### **Karen Blixen Museum**

This museum was originally the home of Karen Blixen, who came to Kenya from Denmark in the early part of this century; the present museum site is at the heart of the larger coffee plantation run by Blixen between 1914 and 1931. The house and surrounding land was donated by the Danish government to Kenya at independence; the house was restored by the Danish government and was used during the filming of Out of Africa, which immortalized Karen Blixen's book by the same name. The Museum was opened to the public in 1986. Much of the original furniture is on display in the house, and combined with the beautifully landscaped gardens and encompassing view of the Ngong Hills, the Museum has continued to be very popular destination for international and local visitors.
